Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Remove the (5) plastic fasteners holding the radiator cover in place. Remove the cover. Remove the screws holding the grille to the vehicle. Separate the black center from the outer grille shell using a Phillips screwdriver.	
3	Center the billet insert behind the grille shell opening. The (4) mounting tabs welded to the rear of the billet insert align with factory mounting holes. Use the factory screws to secure the billet to the shell.	
4	Fasten the small hole in the 'L' Bracket to the mounting hole in the center of the grille shell on top. Reinstall the grille assembly onto the vehicle.	
5	At each end of the assembly, fasten (2) screws to the factory mounting holes.	
6	Make sure the insert is centered and tighten the hardware.	
7	Reinstall the plastic shroud with the fasteners removed in Step 2.	
8	Installation completed.
